**Customizable:**  
4ft in height and 8ft in length

**DURARink** Pro™

The DuraRink Pro™ is engineered for permanent installation with heavy-duty, durable component construction, while offering the ease of a two-person installation. We offer many solution in anchoring and can customize your rink in the dimensions to suit your community needs and wants.

**DURARink** Mobile™

The Mobile Series was engineered as a strong and durable rink board system, which can be easily dismantled for relocation or seasonal storage. Our multi-substrate anchoring system enables the boards to be installed on a wide variety of surfaces. Like the Pro Series, this board system can be utilized for a variety of sports, not just hockey.
